

12/11/20

The collaborative was notified by the state/town Board of Health that an attendee at the 6:00 PM Sunday Mass on 12/6/20 at St. Clare Church, tested positive for COVID-19. Per our safety protocols we informed the 49 attendees using our Contact Tracing records.

As you know, we enforce mask wearing, seating at 6' distances in pews and guide other movement during Mass with the same caution. We disinfect the churches before and after each Mass. We trust the likelihood of contracting the virus due to this potential exposure is minimal. However, we urge all Mass attendees to take appropriate steps if you feel sick and to contact your physician for guidance.

As is also required, we have reported this information to the Archdiocese of Boston COVID Response team and the Braintree Board of Health.

Our continued prayer is for the good health and safety of you and your family.
